PRIMARY EXAMINER

REASONS FOR ALLOWANCE

1. This is an Examiner's statement of reasons for allowance. The closest prior art Boone et al U.S. Pat. No. 6,311,240 discloses a system/method for assisting formatted data transfer that allows a formatting storage controller to read and record data on a formatted storage medium.

Sato Misako et al JP 2002182565 discloses a seal for postage stamp with perforations. However, neither Boone nor sato singularly or in combination discloses the recited feature:

As per claims 1, 4, 19 and 20 " identifying a set of media type format information corresponding to the media type format identifier, for formatting at least one generic postage label, wherein the set of media type information comprises at least one of: media type size, media type dimensions or media type configuration feature, and calculating, according to the set of media type format information, at least one of: a printable size of a generic postage indicia for printing on an at least one label on the particular unit of secured paper label stock, or a print location of the generic postage indicia for printing on the at least one label on the particular unit of secured paper label stock".

As per claims 8 and 18 " identifying the set of media type information that corresponds to the media type format identifier, and responding to an input by a user, via a computer device, of at least the unique secured paper identifier, by generating a printable format of at least one value-bearing item indicia for printing on an at least one label of the secured paper label stock, wherein the printable format of the at least one value-bearing

Art Unit: 3621

item indicia is generated in a format according to the set of media type information that corresponds to the media type format identifier”.
